

# FRAMELESS - SUPER VIEW

**The widest view from all of the frameless masks available on the market. It fits ideally to the face and requires small quantity of gas to clear it from water. Hydrodynamic shape allowing for direct draining of exhaled air away from the diver's view.**

- Exceptional view of 170 degrees thanks to a short distance of glass from eyes
- Enlarged angle of view downwards
- Very small capacity
- Metal strap buckles
- Small size and weight
- Ultra light
- Soft, black silicone glued directly to the mask's glass
- Perfectly adhering to face
- Neoprene strap with Velcro optional

**TECHNICAL  
DIVING EQUIPMENT**
